Homeschoolers Score High on SAT!

from Howard Richman

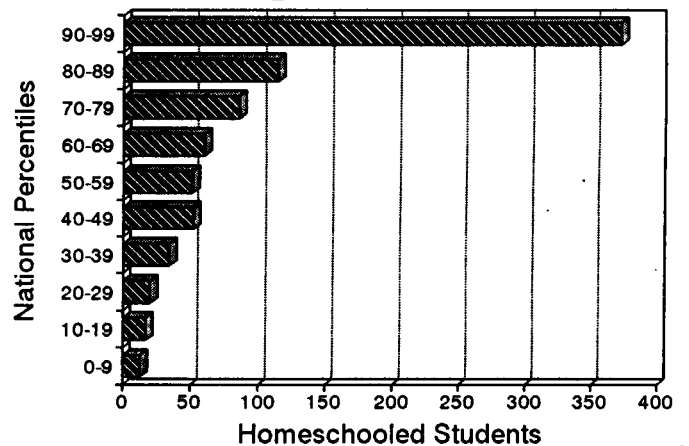

During the 1993-94 school year, 35 homeschoolers in the PA Homeschoolers diploma program took the SAT's providing the first-ever measure of how homeschoolers do on these college entrance tests. Median scores were 79th percentile in verbal and 65th percentile in math. The results are graphed below:

Younger Students' Scores. In the fall of 1994, 819 PA homeschooled students (mostly third, fifth, and eighth grade) took the CTBS/4 achievement test in groups administered by PA Homeschoolers testing service. Median scores were 85th percentile in reading and 79th percentile in math. The results are graphed below:

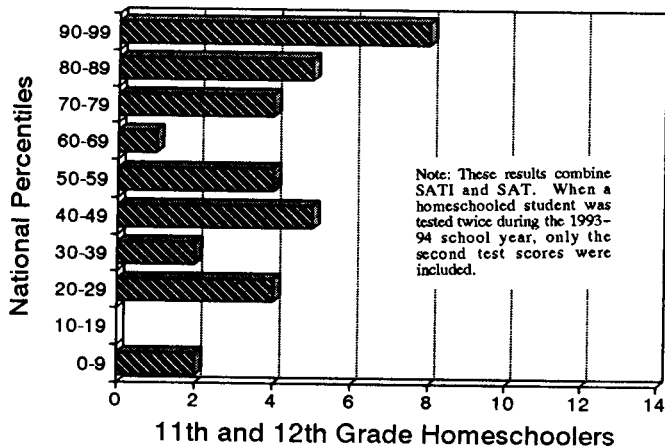

Verbal Scores on the SAT

Reading Scores on the CTBS/4

Math Scores on the SAT

Math Scores on the CTBS/4
